

Black Knight Extraction Hoods

For all commercial food service applications - standard or custom designed

Manufactured by

STEELFORT

November 2008

Black Knight Extraction Hoods

Features

- 1.2mm grain finish stainless steel on all external surfaces
- Easy clean gutters and drip channel with drain
- Galvanised back and top for easy duct positioning
- 1000mm deep, encompasses 800mm deep appliances easily
- Flexible positioning of filters and infill panels, filters can be situated where required
- Four standard sizes all ex stock
- Removable filters and infill panels for easy cleaning and servicing

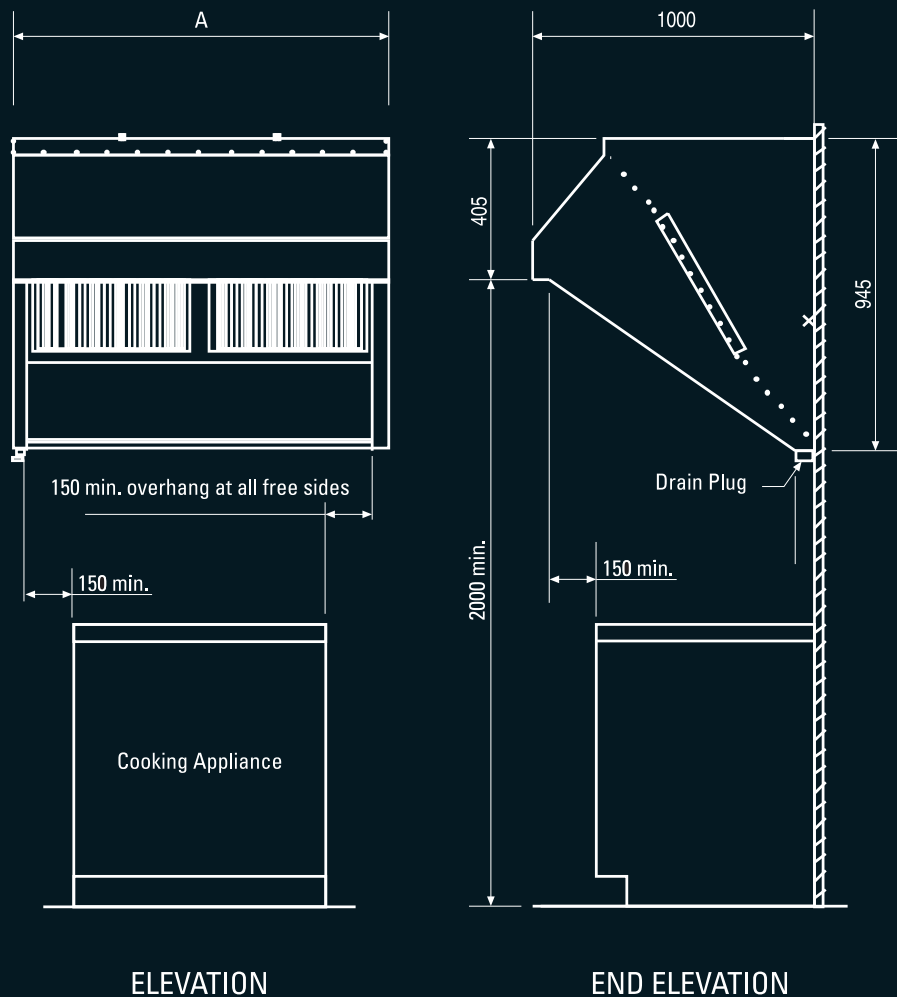

Fans

Vertical discharge roof mounted fans are quieter, easier to install & service and don't collect as much grease. Hood mounted fans are supplied with a matching spigot. Fans are sized for 3.0m of ducting, larger duct runs may need engineering design.

Options

- Roof mounted fan
- Hood mounted fan
- Lights
- Stainless steel filters
- In hood adjustable damper
- Custom ceiling shroud

Steelfort design and custom build island hoods, extra long hoods and special stainless steel ducting to order.

Model	Dimension A	Flue Diameter Hood Fan	Filters	Electrical Loading Hood Fan	Shipping Volume m ³
