## YOU CAN'T GET ANY BETTER®

To understand what makes Cub Cadet® different is to understand the philosophy of ER. What exactly do we mean by ER?

- ER is far more than a phrase.
- It's equipment that's faster, tougher and stronger.
- It's equipment that turns tighter and cuts sharper.
- It's equipment that demonstrates our engineering excellence.
- It's equipment that is better than anything in the industry  
- and better than what our customers expect.

## A TRADITION OF QUALITY

In 1961, International Harvester rolled out the very first Cub Cadet machine. Later, in 1981, the company sold its consumer division to MTD Products, Inc., and with that the Cub Cadet Corporation was born.

Since then, Cub Cadet has built on that strong heritage to become a driving force in the production of rugged, dependable, hard-working, American-made power equipment, based on solid tractor technology and experience learned on the farm.

Today, Cub Cadet still leads the industry with a standard of quality that has become the benchmark for outdoor power equipment. Quality is the driving force behind everything Cub Cadet makes and it shows in the design, the construction and the value-added features that go into our products.

Cub Cadet has always been known for innovation, introducing new product lines that utilise state-of-the-art technology to make the best equipment out there.

## LOG SPLITTER

### LS 33T

8.5HP Kohler OHV motor

33 tonne ram pressure

2-stage pump

Vertical/Horizontal splitting positions

Engine	250cc Kohler OHV
Ram Pressure	33 tonne
Operation Position	Vertical/Horizontal
Log Cradle	Standard
Log Cradle Capacity	63.5 cm
Cycle Time	15 seconds w/auto return
Oil Reservoir	32 litre (oil not included)
Wedge	Cast Iron
Jack Stand	Deluxe/wheeled
Wheels	40 cm x 12 cm wheels
Fenders	Chequer plate steel
Hoses	Coil wrapped
Approx Weight	308 kg

#### Warranty

Domestic use 2-years

Commercial use 90 days

## BUILT TO HANDLE HEAVY-DUTY JOBS

### SMARTER OPERATION

Vertical/Horizontal operation allows for splitting in both positions.

### FASTER SPLITTING

33 tonne of ram pressure for even more power and faster easier splitting.

### LONGER LASTING

Coil-wrapped hoses dissipate heat better for longer lasting, more effective operation.

### TOUGHER BUILD

Heavy-duty chequer plate steel fenders provide protection from road debris.

## QUICKER MOWING

Cub Cadet's patented SynchroSteer technology synchronises front wheel steering with the speed and direction of the rear wheels. This technology gives you the zero-turn manoeuvrability you need to get the job done faster.

## EASIER STEERING

The 35.5 cm easy-to-use, soft-touch steering wheel connects with a dual transmission that provides independent control for full 360 degree turning.

## TIGHTER TURNING

The world's first and only zero-turn lawn tractor features a unique, steerable pivoting front axle, which allows you to make extremely tight turns. You can easily manoeuvre around any obstacle and it reduces your trim time so that you can finish faster.

## BETTER TRACTION

A wide track and a low centre of gravity provide extra traction and stability to mow a straight line on hills and inclines.

**WE BUILT A LOT INTO IT.  
YOU'LL GET A LOT  
OUT OF IT.**

## **1000 SERIES LAWN TRACTORS**

### **STRONGER ENGINES**

Powerful Cub Cadet professional-grade engines by Kohler provide exceptional cutting performance, even in tall, thick grass.

### **CLEANER CUT**

The cutting system features a deep deck that provides optimal grass lift and mulching capability. The overlapping blades ensure that no grass is left uncut and a wide discharge chute spreads grass clippings evenly - providing a manicured lawn without clumping or uncut grass.

### **TIGHTER TURNING RADIUS**

The most manoeuvrable lawn tractor in its class. With a 30 cm turning radius, it easily mows around obstacles reducing the need for trimming and backing up.

### **TOUGHER BUILD**

Built to last with fully welded steel frames that are the thickest in the industry, not to mention cast-iron front axle.

## EASIER OPERATION

Four-bolt hubs with lug nuts are used for added durability and ease of maintenance.

## SMARTER TECHNOLOGY

Heavy-duty hydro transmission is easy to use and can handle ground-engaging attachments.

## CLEANER CUT

137 cm/54" deck provides maximum cutting width while the rear striping deck rollers provide a professional cut.

## TOUGHER BUILD

Larger 58 cm rear wheels with 2.5 cm heavy-duty rear axle provide more stability and clearance.

## BETTER DRIVE SYSTEM

Shaft drive brings power directly from the engine to the transmission with no belts to slip, snag or break.

## SMOOTHER RIDE

A deluxe ultra-high-back seat provides an extremely comfortable ride, plus the fender flare offers convenient storage and a 12V adapter turns your tractor into a portable power source.

## SHARPER BLADES

1/2 cm heat-treated cutting blades are thicker than regular mowing blades so they stay sharper longer.

## TOUGHER TRANSMISSION

A cast-iron fully serviceable transmission with oil filter provides longer life and enhances performance.

## EASIER OPERATION

Power steering and dual foot-pedal hydrostatic drive make it easy to operate on all types of terrain.

## STRONGER ENGINE

The Cub Cadet professional-grade Kohler Command V-Twin OHV horizontal engine has cast-iron cylinder sleeves, automotive-style air filters and full-pressure lubrication for longer life.

## SMARTER TECHNOLOGY

The steel PowerShaft direct-drive shaft delivers power from the engine directly to the transmission and deck. Both options of deck sizes are operated by an exclusive E-Vac PTO that offers the smoothest engagement possible.

## TOUGHER BUILD

The 9-gauge welded steel frame features full-length twin C-channel construction to absorb stress for a longer life.

**Cub Cadet**®

#### The Cub Cadet Dealer Network

These days, you have a number of options for purchasing a new piece of yard equipment. So why come to an independent dealer? It's simple. Cub Cadet dealers are product specialists.

They share a passion for engineering excellence and they're extensively trained to help ensure your complete satisfaction.

As specialists, Cub Cadet dealers can help you select the right tractor and equipment for your yard care needs. Then they'll set it up, inspect it, test-drive it, show you how to use it and provide you with all your service needs – from routine maintenance to repair.

For more information about our products and our dealer network, please call 06 350 1350 or check our website at [www.steelfort.co.nz](http://www.steelfort.co.nz)
